## HOUSE IDENTITY Map

Overleaf is a map of the village centre showing the location of the houses. It was suggested to the Parish Council by Colin Lukey as something we all needed as a result of his experiences having to help couriers and delivery drivers find houses in the village. Many residents will have similar experiences. A quick look at the map will soon show that the numbering of houses is chaotic and that it is very difficult for drivers to find houses. The map is intended to help residents who may find themselves trying to give directions to a driver. We're getting an increasing number of delivery vans and couriers all the time. The aim is to show only house numbers or house names but not to show the names of residents.

If anyone finds that there is an inaccuracy would they please contact the editor (details at the foot of the page) with corrected information so that we can complete the map.

It is suggested that you keep this map handy in case it is needed. The Parish Council would welcome any suggestion as to how this information could be used most effectively.

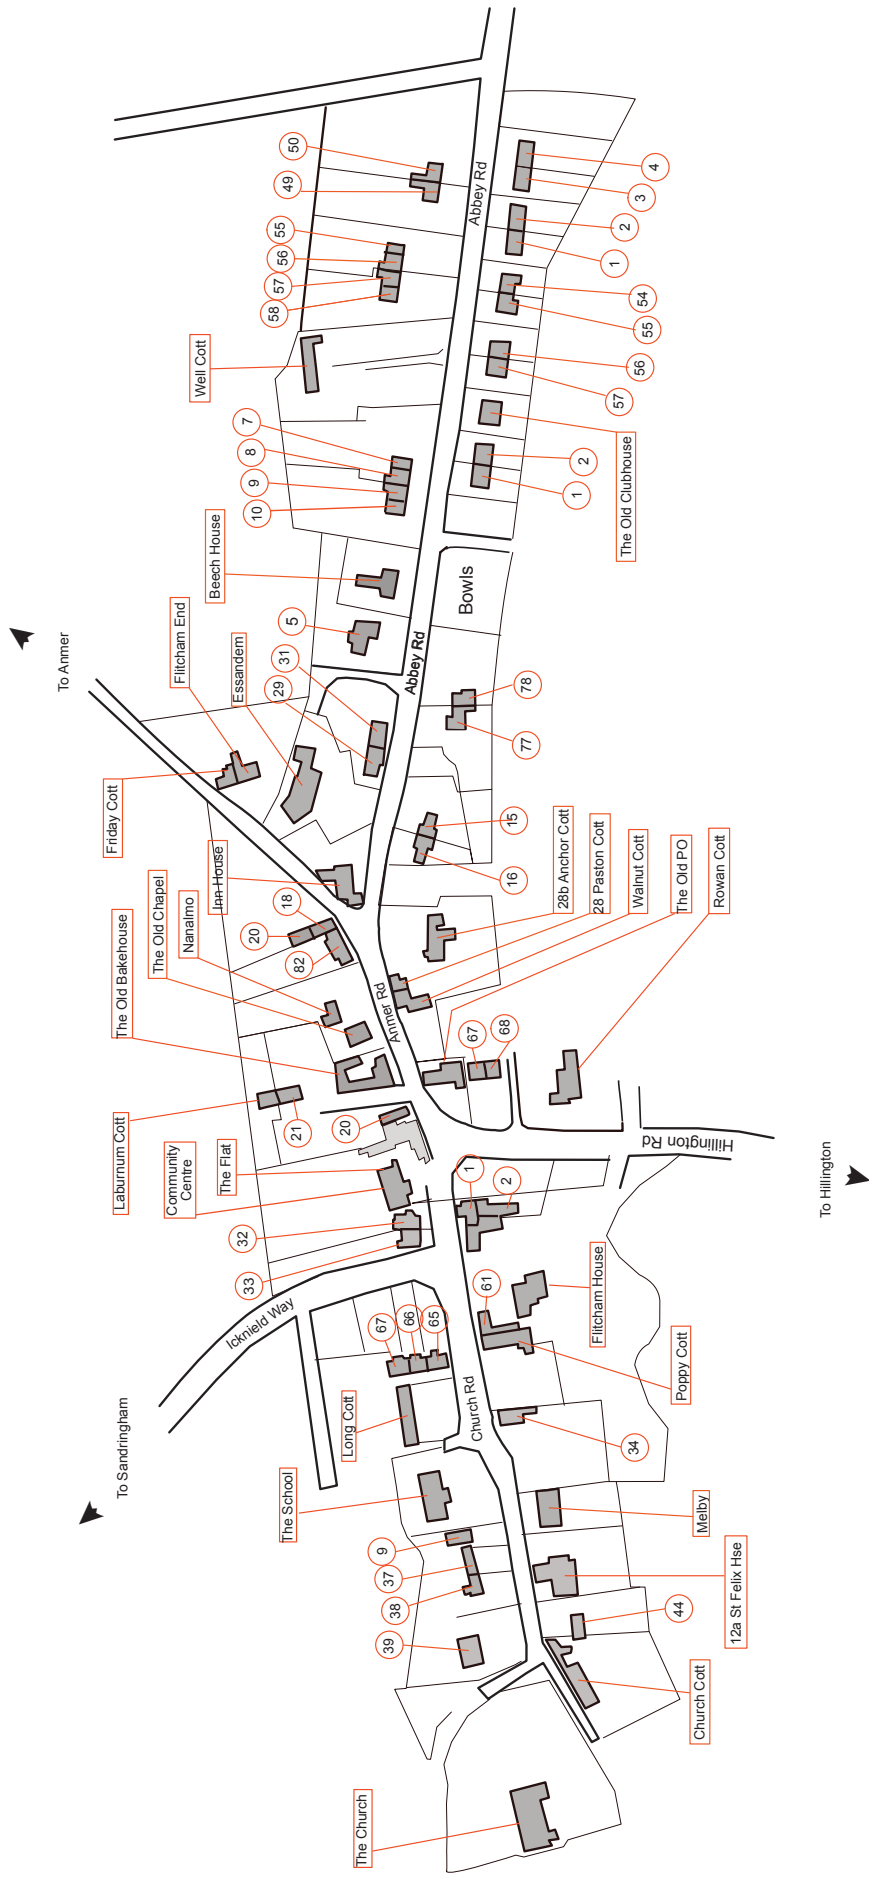

## Copy deadline

Copy needs to be received before the 16th day of the month to allow time for editing, printing and distribution. This is to ensure that it is out before the month starts. Please email or hand submissions to the editor. Regular subscribers will get an email reminder. Editor: Roger Young 01485 600948 or Email : [youngroger235@gmail.com](mailto:youngroger235@gmail.com)
