

Fritcham cum Appleton Parish Council

We are pleased to announce that we have now received the Community Defibrillator that will be positioned on the exterior wall of the Fritcham Community Centre. Sandringham Estates have kindly offered to install the cabinet and defibrillator for us and this will be carried out in the very near future.

The Parish Council have been overwhelmed by the support from the community to help us reach the target to purchase the defibrillator and external cabinet and wish to thank everyone for their generosity.

As part of the purchase of the equipment from the East of England Ambulance Service, training for 12 persons is provided. This will take place on Tuesday 15th January at 2pm at the Community Centre. Several councillors and some staff from the school have expressed an interest to be included, but there is still some availability. It was therefore felt that some members of the Fritcham Community might also like to take part. If you would be interested, please advise the Parish Clerk as soon as possible. Places will be on a first come first served basis. This training is FOC.

Gill Welham
